

## NeuroShell Trader

The Continuation Index can be easily implemented in the NeuroShell Trader by combining some of NeuroShell Trader's over 800 indicators and John Ehlers' Ultimate Smoother and Laguerre Filter indicators from the July Trader's Tip. To implement the Continuation Index, select '**New Indicator ...**' from the '**Insert**' menu and use the Indicator Wizard to create the following indicators:

DIFF:                      Subtract( Ultimate Smoother(Close,40), Laguerre Filter(Close,0.8,40) )  
VARIANCE:                MovAvg( Abs(DIFF), 40 )  
EXP:                        Exp( Divide( Mul2( 4, DIFF )))  
CONTINUATION INDEX: Divide( Subtract( EXP, 1 ), Add2( EXP, 1 ) )

Users of NeuroShell Trader can go to the STOCKS & COMMODITIES section of the NeuroShell Trader free technical support Website to download a copy of any of the traders' tips.
