

## NeuroShell Trader

The three indicator swing trading system by Donald Pendergast can be easily implemented with a few of NeuroShell Trader's over 800 indicators. Simply select 'New Trading Strategy ...' from the 'Insert' menu and enter the following in the appropriate locations of the Trading Strategy Wizard:

Generate a buy long STOP order if all of the following are true:

$A > B(\text{Close}, \text{ExpAvg}(\text{Close}, 50))$

Stop Price:  $\text{Add2}(\text{Avg}(\text{High}, 5), 0.05)$

Generate a long protective stop order at the following price levels:

$\text{Avg}(\text{Low}, 5)$

Generate a sell short STOP order if all of the following are true:

$A < B(\text{Close}, \text{ExpAvg}(\text{Close}, 50))$

Stop Price:  $\text{Sub}(\text{Avg}(\text{High}, 5), 0.05)$

Generate a short protective stop order at the following price level:

$\text{Avg}(\text{High}, 5)$

If you have the NeuroShell Trader Professional, you can also choose whether or not the parameters should be optimized. After backtesting the trading strategy, use the 'Detailed Analysis ...' button to view the backtest and trade by trade statistics for the strategy.

Users of NeuroShell Trader can go to the STOCKS & COMMODITIES section of the NeuroShell Trader free technical support Website to download a copy of any of the traders' tips.
